RE: Application of Duke Energy Carolinas, LLC for Approval of New Cost Recovery Mechanism and Portfolio of Demand-Side Management and Energy Efficiency Programs  
**Docket No. 2013-298-E**

Dear Ms. Boyd:

By this letter, the South Carolina Office of Regulatory Staff ("ORS") hereby notifies the Public Service Commission of South Carolina ("Commission") that ORS has reviewed, and does not oppose, the request submitted by Duke Energy Carolinas, LLC ("DEC" or the "Company") in the above referenced docket on January 24, 2019 ("Request"). According to the Request, DEC proposes to make certain modifications to its Residential Smart Saver Energy Efficiency Program ("Program"), in order to improve the Program's cost-effectiveness.

The Company proposes to recognize lower actual incremental costs, make its trade ally participation more streamlined and less costly, reduce its Program administration costs, and recognize a three-year transition to referral-only channels.

Letter – Jocelyn G. Boyd, Esquire

January 30, 2019

The Company proposes to revise the Program tariff by removing the dollar amounts from the tariff. According to the Company, this would improve the Company's ability to quickly react to changes in the marketplace and increase the cost-effectiveness of the Program. DEC also proposes to remove the requirement that applications be made within 90 days of eligible work being completed. According to the Company, this would provide greater flexibility to customers.

Thank you for the opportunity to provide comments in this matter.

Sincerely,

Andrew M. Bateman
